NEW MAIL SYSTEM.

Mail For South America Reaches Destination Quicker by European Route.

NEW YORK, May 12.—The White Star liner Majestic, which sails for Queenstown and Liverpool on Wednesday will take the first consignment of American mail under the new system of transporting it by way of Europe to South Brazil, Argentina, Uruguay and Paraguay. The mail will be transferred to a swift liner bound from England for South American ports and will get to its destination several days sooner than it would if sent directly from this port by slow and irregular steamships. The French liner La Touraine, which sails from Havre on Thursday, will take a batch of South American mail and the American liner St. Louis off on Saturday for Southampton will do likewise. Shippers expect to save from five to seven days by sending their mail by way of England and France.

STEEL MILL FIRE.

WHEELING, W. Va., May 13.—After consuming the warehouse of the Aetna Standard Mill of the United States Steel Corporation at Bridgeport, O., today, fire which had got beyond control of the firemen and threatened complete destruction to the \$2,000,000 plant of the concern, was subdued when a change of the wind blew the flames toward an open field. The loss is placed at \$25,000.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. T. F. Laurin, Owl Drug Store.
